

Cyber Resilient Massachusetts Grant Program

Funding Available for Managed Detection and Response

The MassCyberCenter is providing grants under the Cyber Resilient Massachusetts Grant Program to **municipalities, small businesses, and non-profits** in Massachusetts to fund Managed Detection and Response (MDR) services from CyberTrust Massachusetts. Grants provide up to \$25,000 to fund MDR for up to 3 years.

The CyberTrust Massachusetts Security Operations Center provides MDR with the support of SentinelOne. This service positions organizations to detect and respond to cybersecurity threats and includes the following:

- Managed 24x7 endpoint detection and response
- Network Discovery
- Vulnerability Assessment
- Active Directory and Entra Hygiene
- Active Directory Identity Protection
- Software and Asset Inventory

Additional Information

- Applications accepted on a rolling basis
- Applications must include a scope of work for MDR services from CyberTrust MA

About CyberTrust Massachusetts

CyberTrust Massachusetts is a non-profit organization working closely with the MassCyberCenter and is currently supported with grant funding to support the operation of SOC and Cyber Range facilities located at colleges and universities across the Commonwealth that grow and promote the diversity of the cybersecurity pipeline, as well as help provide solutions to municipalities, small businesses, and other organizations for protection against cyber threats.

To learn more and apply

Our mission is to improve cybersecurity resiliency and create cybersecurity workforce development opportunities in Massachusetts by building public awareness, creating cutting-edge programs, organizing engaging events and leading collaborative working groups.

"In today's interconnected world, cybersecurity is economic security."

John Petrozzelli, Director of the MassCyberCenter

Programs

Cybersecurity Resiliency

Cyber Resilient Massachusetts Grant Program

Municipalities, small businesses and nonprofits in Massachusetts are eligible to receive grants under the Cyber Resilient Massachusetts Grant program to fund Managed Detection and Response (MDR) services from CyberTrust Massachusetts. Grants provide up to \$25,000 to fund MDR for up to three years.

Minimum Baseline of Cybersecurity

Technology plays a vital role in Massachusetts and in the lives of its citizens. The minimum baseline framework is made up of four foundational goals to help organizations improve their cybersecurity posture and protect against cyberattacks using people, process and technology. A set of learning modules and listing of free and low-cost federal and state resources is provided for each goal.

Cyber Resilient Massachusetts Working Group (CRMWG)

The CRMWG brings together public and private sector leaders from across Massachusetts to identify ways the state's innovative technology ecosystem can help Massachusetts municipalities and critical institutions protect sensitive data, increase cybersecurity awareness and respond to emerging threats.

Workforce Development

Security Operations Center & Cyber Range Initiative

The MassCyberCenter is supporting the launch of statewide programs to promote the development of a diverse cybersecurity workforce and improve local cyber resiliency in the state through the establishment of Security Operations Centers (SOCs) and Cyber Ranges at colleges and universities.

Cybersecurity Mentorship Program

The Cybersecurity Mentorship program matches diverse cybersecurity undergraduate students with a mentor from the cybersecurity industry for a project-based mentorship experience. The goal of this program is to promote the development of a diverse cybersecurity talent pool in Massachusetts.

ACE Alternative Cyber Career Education (ACE) Grant Program

The ACE Grant Program supports cybersecurity training initiatives across Massachusetts that serve as alternatives to traditional degree programs. Grants are available for Massachusetts-based organizations that train young adults and retrain existing professionals to enter the cybersecurity workforce.

Cybersecurity Jobs Board

The [Cybersecurity Jobs Board](#) offers a listing of open cybersecurity jobs and internships in the state, as well as remote positions affiliated with Massachusetts organizations.

Cybersecurity Training & Education Working Group (CTEWG)

CTEWG's mission is to support the training and education of cybersecurity students and professionals in Massachusetts through collaboration and partnerships. The group meets monthly to collaborate and discuss initiatives and requirements that support cybersecurity education and training programs.

Events

Massachusetts Cybersecurity Forum

The annual Massachusetts Cybersecurity Forum brings together cybersecurity leaders from across the state to showcase the vibrant cybersecurity ecosystem, promote public and private partnerships and highlight Massachusetts as a national leader for cybersecurity.

Massachusetts Municipal Cybersecurity Summit

At this free annual cybersecurity training event, attendees learn how to recognize emerging threats, bolster defenses and respond to various cybersecurity challenges.

Massachusetts Cybersecurity Month

Massachusetts Cybersecurity Month highlights broad audiences such as educational institutions, businesses, R&D centers, policy leaders, investors and technology groups that come together in the Massachusetts cybersecurity ecosystem. This ecosystem makes Massachusetts a national cybersecurity leader and enables the state's citizens and economy to thrive in the face of growing threats. Massachusetts Cybersecurity Month is held concurrently with [National Cybersecurity Awareness Month](#).

COMMONWEALTH SOC RANGE INITIATIVE

The MassCyberCenter has launched programs to grow a diverse cybersecurity workforce and improve local cyber resiliency in Massachusetts through the establishment of a statewide Security Operations Center (SOC) and Cyber Ranges at colleges and universities.

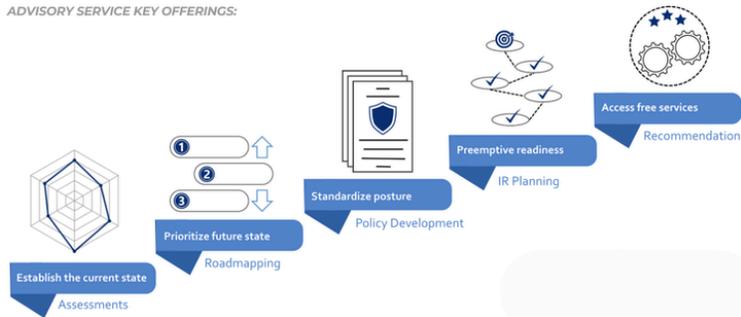

CyberTrust Massachusetts is a non-profit working closely with the MassCyberCenter and is currently supported with grant funding to support SOC and Cyber Range operations.

Security Operations Centers

The CyberTrust Massachusetts SOC provides Managed Endpoint Detection and Response (MDR) and cybersecurity assessments to municipalities, small businesses, and non-profits in Massachusetts.

Cybersecurity Assessments

ADVISORY SERVICE KEY OFFERINGS:

Managed Detection and Response

- Managed 24x7 Endpoint Detection & Response
- Network Discovery
- Vulnerability Assessment
- Active Directory and Entra Hygiene
- Active Directory Identity Protection
- Software and Asset Inventory

Cyber Ranges

Powered by  **immersive**

Labs

Over 2300 labs broken up into topics, career paths, threat actors, CVEs, etc.

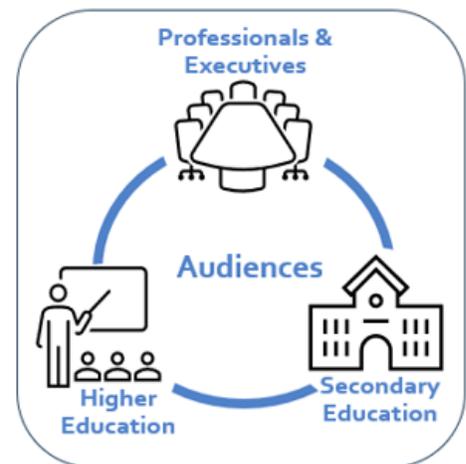

Crisis Simulation

Gamified table-top scenarios for executive audiences

Team Cyber Simulation

End-to-end attack scenarios (offensive and defensive) to exercise team synergy and technical acumen

Four Locations Statewide
